

## ***Radius Community Centre for Education and Employment Training***

Is an organization that has offered programs and services to children and adults since 1970.

We help people to enhance their sense of personal worth and responsibility through education, community participation and employment training.

*"We envision a healthy civic structure that unites all citizens — individuals, corporate, third sector and government to assume responsibility for the well being of the community."*

## What participants are saying...

*"I learned an immense amount of helpful information and techniques that I find will be useful in my personal and professional lifestyles."*

*"My rating is a 10. I found the information is invaluable. I have received a lot of this training years ago, so for me it was a good refresher as well as a chance to re-evaluate where I am at now and to set up new goals. I also will be having my staff scheduled for this training because I feel it will be very helpful and allow them the time to know themselves and set up goals."*

*"Areas covered are applicable to everyone and provide valuable insight into why we are the way we are, and why we do the things we do. Absolutely loved it!"*

*"I looked deeper into myself as a leader, and thought about what I do, or how I come across to others."*
